

Maintaining inter-college
relations and peer exchange

- Met people – friends / friends / friends
- A nice platform for academic development
- New contacts – sharing ideas and info
- College – to – College partnership to reduce old-school influence
- Learning from other institutions
- Making new friends and sharing constructive ideas
- Learned how other institutions do their practicals, assessment of practical and the different learning programmes and areas that they have
- Benchmarking with other colleges
- As a lecturer I realized that I can use this workshop as a basis for long-lasting academic relationships and basically enjoy the benefits that come with being integrated into the college network
- I learned a lot from other colleges
- New ideas from my colleagues
- Team work & group discussion
- Sharing of ideas with different people from other institutions

- What the other colleges are doing/offering to their students
- Sharing information
- Information sharing
- Learning from other colleagues
- Meeting colleges, let's do it more often
- Working together with other staff
- Sharing ideas with other disciplines
- Exchange of ideas and openness
- Networking
- Working together
- Ultimately having a platform to engage with colleagues
- Sharing curriculum issues with other colleagues from different colleges
- Working & discussing with new group partners
- Cross pollination during group discussion
- Importance of group discussion and shared insights with colleagues from different colleges
- Working with different people has improved my skills
